À ÁÀ ÁÀ ÁÀ ÁÀ À Cassie and her friends have seen the depths to which the Others will sink, nor have the Others seen the heights to which humanity will rise, in the ultimate battle between life and death, hope and despair, love and hate. Because of their disguise, Cassie has two rules during the 4th wave: Trust no one, and stay alone if you want to stay alive. After Cassie's father was killed, while she narrowly escaped with a shot in the leg. After the 4th wave, only one rule applies: trust no one. Who have scattered Earth's last survivors. And after the 3rd, only the unlucky survive. In time, Cassie grows suspicious of Evan, believing that he is a Silencer, and perhaps even the Silencer, who shot her in the leg. While Cassie is receiving treatment for her wounds, a boy named Ben, who happened to attend the same high school as Cassie before Colonel Vosch is training the invasion at Camp Haven. À ÁÀ ÁÀ ÁÀ ÁÀ They are down here, they are up there, they are nowhere. This alien has been impersonating a high-ranking member of the military. Zombie. After the 2nd, only the lucky escape. Cassie is alone, as her father has been shot by The Silencers who are commanded by Colonel Vosch, the leader of The Others. The characters are realistic and react as anyone their age should respond to this kind of scenario. As the 5th Wave rolls across the landscape, Cassie, Ben, and Ringer are forced to confront the Others' ultimate goal: the extermination of the human race. To give up or to get up. Betrayed first by the Others, and now by ourselves. Together, even though they are both wary of trusting each other, they attempt to escape the base with her little brother, Nugget. On this excursion, a girl named Ringer begins trying to convince him that the soldiers and Colonel Vosch have been lying to them. On their way out of the base, they encounter Colonel Vosch, who threatens to kill Sammy. In these last days, Earth's remaining. After making this, well decided that he needs to save the younger brother of Cassie from the field, so he and his team come back At the same time. At the same time, Cassie has surrendered on the basis to save his little brother when she encounters Ben. When her workout ends, she is sent on a mission with some other young people from the field. Beings that seem only human, who wander For the campaign that kill anyone see. That they spread the last survivors of the Earth. How do I get rid of the Earth of seven billion humans? and the two begin to convince the other young people of the conspiracy. Release the humans of their humanity. At the time we meet Cassie, the world is experiencing the fourth wave of alien invasion That involves the aliens that seem to be human to make friends with the remaining humans to eliminate them. To be alone is to stay alive, Cassie believes, until you encounter Evan Walker. Now, it's the dawn of the fifth wave, and on a solitary stretch of highway, Cassie runs to them. Fortunately, Evan was also able to boil on the base and sabotaged the warning systems, allowing Sammy, the group of cassie and well to escape the base. The fifth wave is a unique novel that tramples the line between young adult fiction and adult fiction by providing the reader with gritty descriptions and a disturbing post-apocalyptic mood. They came to cancel, they came to save us. The invasion of others decimated the human population with the waves, a series of attacks destined to influence man more as possible. The novel The fifth wave introduces us to Cassie, which hides in the woods in Cincinnati, Ohio. The younger brother, Sammy, was brought to Camp Haven, who is presumably a military training camp. For a trained person the dawn of the 5th wave, and on a lonely stretch of highway, Cassie runs from Them. Them.
